

1. Begin by cutting 4 feet of beading thread, or as much as you feel comfortable working with. Also string on your size 12 needle.
2. Pick up your first row of beads with your needle in this order: Four 15/0 hematite, Two 11/0 green, Two 11/0 white, Two 8/0 blue, Two 11/0 white, Two 11/0 green. Pull the beads down your thread, leaving a 12 inch tail. Bring the two sides of the thread together and tie a double overhand knot. Trim your thread.
3. Take your needle and go through two of your 15/0 hematite beads. You are now ready to begin your bead weaving as seen in the video. As you work, you will need to tie off and add new thread. Weave until you have a 7 inch long cellini spiral.
4. Weave 4 additional rows of 15/0 beads to taper the end of your bead weaving into a tube shape. Tie off, cut, and weave in your thread. Using the 12 inch tail of thread, repeat this step on the other side of your cellini spiral.
5. To assemble your necklace, begin by using flush cutters to cut two 6 inch lengths of bubble chain. Set aside.
6. Then cut 6.5 inches of 2mm rolo chain and attach the loop of one eye pin onto the end of the chain by opening the loop as you would a jump ring, and close the loop over the chain link.
7. Now string one 8/0 seed bead, one cap, and another 8/0 seed bead onto your eye pin, and create a wrapped wire loop onto one 6 inch length of bubble chain.
8. Next, slide the 2mm chain through the center of your beaded focal, eye pin first, as shown in the video. Then repeat the above step to assemble the other side of your necklace.
9. To attach your clasp, open a jump ring. Slide it through the last link on one side of the chain, and also slide on the loop of your clasp. Close the jump ring.

10. Open another jump ring. Slide on the last link of chain on the other side of the necklace. Close the jump ring. Enjoy your necklace!
