

This tutorial will show you with Right Angle Weave method since many of you are familiar with this stitch. You can complete this with crossweaving as well.

1.

On comfortable length of thread, pick up one 11/0, three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A and one 11/0..

2.

Pick up three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A.

Pass through the first 11/0 (red arrow).

3.

Pass through the next 15/0s, 11/0, 15/0s to exit at the 11/0 on the other side (red arrow).

Pick up three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A and one 11/0.

4.

Pick up three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A. Pass through 11/0 (red arrow).

Pass through the next 15/0s, 11/0 and 15/0s to exit at the 11/0 on the other side (blue arrow).

5.

Repeat step 3 and 4 until the desired length. Don't forget to calculate the length your clasp. If you are not sure, just wrap your work around your wrist. You should leave the space between two ends around one inch, or maybe more for your safety. It's always easier to add more length than to reduce it.

If you want to make just one row, exit your thread at the rightmost 11/0 and skip to step 12.

For double or more row, exit your thread at the 11/0 (red arrow).

6.

Pick up one 15/0 color B, three 15/0s color A, one 11/0, three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A, one 11/0, three 15/0s color A

and one 15/0 color B.

Pass through 11/0 (red arrow).

7.

Pass through the beads and exit at the leftmost 11/0 (red arrow). Pick up three 15/0s color A, one 15/0 color B. Pass through 11/0 from the first row (blue arrow).

Pick up one 15/0 color B, three 15/0s color A and one 11/0.

8.

Pick up three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A. Pass through 11/0 (red arrow).

9.

Pass through the beads to exit at the leftmost 11/0 (blue arrow).

Pick up three 15/0s color A, one 15/0 color B, one 11/0, one 15/0 color B, three 15/0s color A and one 11/0.

10.

Pick up three 15/0s color A, one 15/0 color B. Pass through 11/0 from the previous row (red arrow).

Pick up one 15/0 color B, three 15/0s color A. Pass through 11/0 (blue arrow).

Pass through the beads to exit at the leftmost 11/0 (green arrow).

11.

You should get the idea by now how to weave this base. Complete this row or add more rows as you wish.

Do not worry too much if you pick up the wrong colors for 15/0, or just simply use one color only. You see I made mistake at the top leftmost ring too.

12.

Before you weave the crystals to your base for real, just test your colors with the base to see if your colors combo work! It may sound boastful, but I always got compliment about the colors I chose. The truth is choosing the colors is one of the most time consuming step for me.

13.

Exit your thread at the 11/0 (red arrow). It can be the rightmost or leftmost 11/0 or top or bottom row. Just exit where you feel convenience. Please take note of the direction,

how I exited at 11/0 is with my needle pointing downward. Somehow, if your needle points up, it's nothing wrong with that.

Pick up 15/0, crystal, 11/0, crystal and 15/0. Pass through the 11/0 (blue arrow) with your needle pointing at the same direction how you exited. Your crystals will lay a bit diagonal style.

14.

Repeat adding crystals to your base until you reach the other end.

You should exit at 11/0. Pick up 15/0, crystal and pass through 11/0 between crystals.

Pick up crystal and 15/0 and pass through 11/0 at the base (red arrow). If you get it right, your crystals will be crisscrossed.

15.

Repeat the previous step. Complete adding crystals to the other end. Exit your thread at 11/0 (red arrow).

16.

Remember I made mistake at the top rightmost base! I forget to add 15/0 color B. lol

Weave to the other rows. Just pass through the next 15/0s and to 15/0s from the second rows (red arrow). Exit your thread at 11/0 (blue arrow).

17.

Repeat adding crystals like you did the previous row.

Add jump ring to the base in the middle row. Add clasp to your jump ring.

Finish!
